

Topics covered:

- Applications of Machine Learning for Software Security
- Attack and Defense Strategies for Face Recognition Systems
- Watermarking Techniques in Machine Learning
- Security Assessment of Large Language Models (LLM)
- Adversarial Machine Learning
- Internet of Things (IoT) and Operational Technology (OT) Security
- Cybersecurity Measures in Smart Grid Key Management
- Machine Learning for Cryptanalysis
- Detection of Spam and Phishing Emails
- Implementation of Flexible and Fine-Grained Data Access Control for Machine Learning Data
- Security and Privacy Considerations in Machine Learning Applications
- Vulnerability Analysis in Software Systems
- Identification and Analysis of Malware

About the workshop

The objective of this FDP is to merge the principles and techniques of cyber security and machine intelligence domains to enhance the detection, prevention, and response to cyber threats. Participants can explore how machine learning algorithms can be integrated into existing cyber security systems to improve their effectiveness and efficiency. Various case studies of cyber security and best practices for implementing machine learning solutions will be presented. This program encourages the collaboration and knowledge sharing among participants from diverse backgrounds, including cyber security professionals, data scientists, and machine learning experts

Objectives

After attending this program participants can gain a comprehensive understanding of how machine learning can be leveraged to strengthen cyber security measures and better protect against evolving cyber threats. Participants will acquire practical knowledge through case studies, empowering them to integrate machine learning into their cyber security practices effectively. Participants can also apply machine learning techniques to real-world cyber security datasets to develop predictive models and threat detection algorithms

IIITK AND RRU JOINTLY ORGANIZING

Five day online workshop on

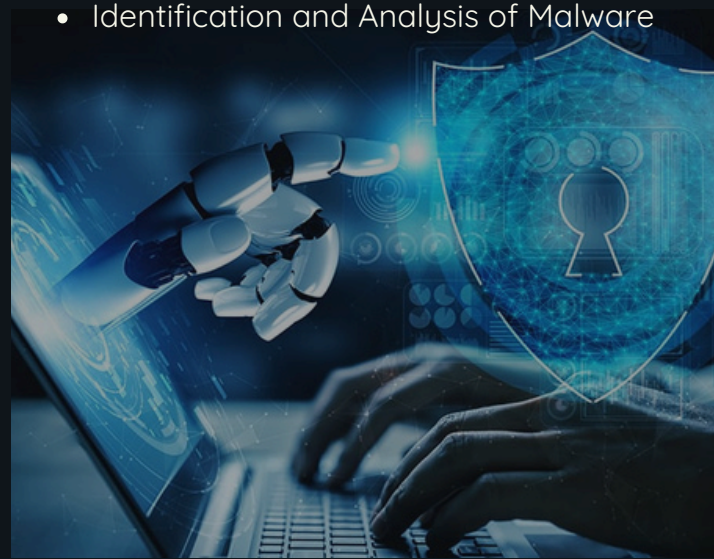

**CYBERSECML : EXPLORING
THE FUSION OF SECURITY AND
MACHINE LEARNING**

July 8-12, 2024

Department of CSE - Cyber Security

Indian Institute of Information Technology Kottayam,
Valavoor P.O, Pala, Kottayam- 686635, Kerala.

www.iiitkottayam.ac.in

ABOUT IIIT KOTTAYAM

The Indian Institute of Information Technology, Kottayam is among the IIITs established as "Institutions of National Importance" by the Ministry of Education, Govt. of India under the ambit of IIIT (PPP) Act 2017. The institute offers a 4-year B.Tech and B.Tech(Hons) program with specialized courses covering all major research domains of Computer Science, Electronics and Communication Engineering. The students are admitted based on the JEE main rank list and the JoSAA/CSAB counseling. The institute also offers MTech in CSE and Ph.D. programs in CSE, ECE, and Mathematics

ABOUT RRU

RASHTRIYA RAKSHA UNIVERSITY, an Institution of National Importance of India, Pioneering National Security and Police University of India, Ministry of Home Affairs, Government of India, is established by the Parliament of India, Act No. 31 of 2020 at Gandhinagar, Gujarat, India with the sole objective of creating an ABOUT SITAICS academic-research-training ecosystem for national security and police. They offer Master and Diplomas in Police Administration, Disaster Management & National Security, Police Science, Coastal Studies, Defence & Strategic studies and Foreign Language Studies

ABOUT SITAICS, RRU

The School of Information Technology, Artificial Intelligence and Cyber Security, offers an atmosphere for students to learn and carry out research. The school offers B.Tech, M.Tech, M.Sc, Diploma and Certificate programmes in Cyber Security and Artificial Intelligence, Forensic Courses.

Department of CSE-Cyber Security, IIITK

The Department of Computer Science and Engineering offers specialization in Cyber Security for undergraduate students and postgraduate working professionals. The program covers a wide range of topics , including cryptography, network security, ethical hacking, and digital forensics. Students learn about the latest tools and techniques used in the field of cyber security and gain hands-on experience through practical assignments and projects. The department also offers various certification courses, training programs and consultancy. The department has dedicated cyber security and digital forensics lab equipped with advanced software and hardware to provide students and enhance the hands on experience.

RESOURCE PERSONS

- Dr. Keyur Kumar Patel, RRU, Gujarat
- Mr. Rabel Guharoy , RRU, Gujarat
- Ms. Aakansha Saxena, RRU, Gujarat
- Dr. S.K. Subith Ali, IIT Bhilai
- Dr. Gaurav Pareek , IIIT Vadodara
- Dr. Syed Taqi Ali , VNIT Nagpur
- Dr. Purushothama V R , NIT Surathkal
- Dr. Shailaindra Tripathi , NIT Raipur
- Dr. Nitesh K Bharadwaj, NIT Raipur
- Dr. Rakesh kunwar, RRU Gujarat
- Mr. Pranjal Upadhyay, RRU Gujarat

PATRONS

- Prof. (Dr.) Rajiv Dharaskar, Director, IIIT Kottayam.
- Dr. M.Radhakrishnan, Registrar, IIIT Kottayam.
- Prof. (Dr.) P. Mohanan, Prof. In-Charge (Academics), IIIT Kottayam.

PROGRAM CONVENERS

- Dr. Jatin Patel, Director I/c, SITAICS, RRU Gujarat.
- Dr. Panchami V, Assistant Professor and Head, Dept. of Cyber Security, IIIT Kottayam

PROGRAM CO-ORDINATORS

- Dr. A Balu - Assistant Professor, 048220 2182, balu@iiitkottayam.ac.in
- Dr. Kanchan Lata Kashyap - Assistant Professor, 9826733258, kanchanlata@iiitkottayam.ac.in

REGISTRATION

(Seats will be assigned on a first-come, first-served basis)

Target Audience :

Faculty, PhD scholars, UG/PG students

Industry Person

Registration deadline: 01-07-2024

REGISTRATION FEE

PARTICIPANT TYPE	ONLINE
PhD/PG/UG	1000/-
Faculty/Industry Person	2000/-

*Registration fee is not refundable

Fee Payment Details

E-payment link: <https://tinyurl.com/bdhrvvf8>

Steps for Payment :

1. Choose the category as educational institutions
2. Choose payee as IIIT Kottayam
3. Choose payment category as FDP on "CyberSecML Exploring the fusion of security"

SCAN FOR REGISTRATION

Registration begins: 08/06/2024
