

Building Intelligent Systems

Internship Program on Fog Computing, AI/ML, and Digital Twin

24th Jan – 6th March 2024

DST-SERB SPONSORED ACCELERATE VIGYAN – TRAINING AND SKILL INTERNSHIP (VRITIKA)

About VRITIKA :::::

VRITIKA is the call for initiation and practice in science through research internships. This program aims to provide opportunities to promising PG and UG Final Year students from universities and colleges to get exposure and hands-on research experience.

About IIIT Kottayam :::::

The Indian Institute of Information Technology Kottayam (IIITK) is a prestigious higher education institution in Kottayam, Kerala, India. IIITK, founded in 2015, is one of 20 IIITs established by the Government of India's Ministry of Human Resource Development. Undergraduate and postgraduate programmes in Computer Science and Engineering, Electronics and Communication Engineering, Cyber Security, and AI & DS are available at the institute. IIITK features a cutting-edge campus with modern amenities

Objectives :::::

This internship aims to offer essential insights into the transformation of research data into indexed publications, along with exposure to the entire process of handling research manuscripts from their preparation stage to eventual publication. The comprehensive program has been strategically designed to furnish promising students from universities and colleges with opportunities to gain exposure and hands-on experience in the development of research skills. The focus will be on Fog Computing and the applications of Artificial Intelligence/Machine Learning within the realm of distributed computing.

APPLY NOW

::::: Who can Apply? :::::

Masters and UG Final year students (Preferably CSE background) enrolled in any Indian University or Institution.

Good academic record in the relevant areas of specialisation.

The applicants must produce a "Recommendation Letter" cum "No objection certificate (NOC)" from their supervisor/ Head of the Institute
