

No. IIITK/PUR/F/003/2021-2022

09/05/2021

Corrigendum-1

It is notified to all concerned parties that with reference to our tender No. IIITK/PUR/F/003/2021-22 dated 29/04/2021 for the furnishing of double-bedded hostel at IIIT Kottayam, the following changes have been appended in detailed tender notice. All other terms and conditions of the tender document remain unchanged.

- 1) The contractor shall at his own cost submit samples of all materials sufficiently in advance and obtain approval of Engineer-in-Charge. The materials to be used in the actual execution of the work shall strictly conform to the quality of samples approved by the Engineer-In charge and nothing extra shall be paid on this account. The acceptance of any samples or materials on inspection shall not be a bar to its subsequent rejection if found defective.
- 2) The contractor shall at his cost, make all arrangements and shall provide necessary facilities as the Engineer-in-charge may require for collecting, packing, forwarding, and transportation of the required number of samples for tests and for analysis at such time and to such places as directed by the Engineer-in-charge. ***Nothing extra shall be paid for the above operations including the cost of materials required for tests and analysis. testing charges shall be borne by the contractors.***
- 3) The necessary tests shall be conducted in the laboratory approved by the Engineer-in-charge. The samples for carrying out all or any of the tests shall be collected by the Engineer-in-charge or on his behalf by any other officer of IIITK. The contractor or his authorized representative shall associate himself in the collection, preparation, packing, and forwarding of such samples for the prescribed tests and analysis. In case the contractor or his authorized representative is not present or does not associate him in the aforesaid operation the results of such tests and consequence thereon shall be binding on the contractor.
- 4) Materials used on work without prior inspection and testing (where testing is necessary) and without the approval of the Engineer-in-charge are liable to be considered unauthorized, defective, and not acceptable. The Engineer-in-charge shall have full powers to require the removal of any or all of the materials brought to the site by the contractor which are not in accordance with the contract specification or do not conform, in character or quality to the sample approved by the Engineer-in-charge. In case of default on the part of the contractor in removing rejected materials, the Engineer-in-charge shall be at liberty to have them removed at the risk and cost of the contractor.
