

Image Analysis with Hands-on Training using Python

Date: 14.12.2023 to 20.12.2023

Time: 5.30 PM to 7.30 PM

Seven-day online FDP cum Workshop in **Image Analysis with Hands-on Training using Python** organized by Department of Computer Science and Engineering, Indian Institute of Information Technology Kottayam.

TOPICS (not limited to):

- Introduction to Computer vision and Image Processing: Image representation, Digitization, Digital image properties.
- Image Pre-processing: Pixel brightness transformations, Geometric Transformation, Local pre-processing, Image restoration
- Image Enhancement, Image compression, Morphological Processing
- Segmentation: Thresholding, Edge-based segmentation, Region-based segmentation, Template Matching, texture segmentation
- Feature Description: Spatial, Transform, Edges and boundaries, shape, moments and texture features
- Machine learning in image analysis: Image classification, clustering, object detection, and image synthesis.
- Deep learning for image analysis: Exploration of deep neural networks for solving complex image analysis problems.

WHO CAN ATTEND?

- The intended workshop is open to people from academia, industry, researchers, UG, PG students and anybody with a curiosity about computer vision and image processing.
- The enrolled candidates will receive information about the online platform and meeting link via their registered email.

HIGHLIGHTS

- Experts from academia and industry will lead the sessions. This workshop will equip you with practical skills and valuable information.
- Hands-on Training using Python for all sessions.
- Recordings, presentations and other relevant materials will also be shared.
- The entire program is going to be delivered online (5.30 PM to 7.30 PM).
- Participants will receive a certificate [one must have at least 80% attendance and 60% marks for assessments].
- Assessment for every session will also be conducted online.
