

Indian Institute of Information Technology Kottayam presents

Two day Hands-on Workshop on

N-Large

NLP and Large Language Models

Resource Person

**Prof. Ponnurangam
Kumaraguru**
Professor, IIIT Hyderabad

Organized by
**Department of Computer Science and Engineering
& ACM Student Chapter, IIIT Kottayam**

Topics

- Introduction to Natural Language Processing
- Language Modeling- Evolution
- Neural Language Models
- Large Language Models
- Practical Sessions on usage of LLMs in various applications
- LLM capabilities
 - What are LLMs capable of?
 - What are different tasks that we can do with them?
- LLMs in depth
 - What makes LLMs tick?
 - How are LLMs working internally?
 - How are they trained?
- Running LLM - with/without GPUs
 - Using libraries like Huggingface's Transformers

Highlights

- Theoretical and practical discussions on LLM concepts
- Hands-on sessions
- Opportunity to interact and network with experts
- Discussions on research directions

Registration Process

Step-1: Fee payment

- Go to SBI Collect:
<https://www.onlinesbi.sbi/sbicollect/icollecthome.htm>
- Select "Educational Institutions"
- Search for Payee "IIIT Kottayam" and click on it
- Payment Category – Select "NLP Workshop"
- Enter the details and make payment

Step-2: Registration

- Go to the form:
<https://forms.gle/uqhbYG15gYSH241x7>
- Fill the details

Contact

- Dr. Manu Madhavan, Dr. John Paul Martin
