ABOUT THE INSTITUTE

The Indian Institute of Information Technology Kottayam (IIIT Kottayam) was established in the year 2015 as one among the IIITs established under the administrative control of the Government of India and later declared as an “Institution of National Importance” by an Act of Parliament enacted in 2017. Under graduate and post graduate programmes in Computer Science and Engineering, Electronics and Communication Engineering, Cyber Security, and AI & DS are available at the institute.

ABOUT THE WORKSHOP

The workshop/FDP offers a practical overview of geospatial techniques used to solve real-world problems, led by experts from industry and academia. Participants gain hands-on experience in spatial analysis and remote sensing for urban and environmental monitoring with tools like QGIS for geospatial data visualization and analysis. The workshop also explores CyberGIS applications in strengthening cybersecurity, map and analyze cyber crimes, identify vulnerabilities to protect critical infrastructure.
